

Free Wifi

at York Barracks

Welcome to Münster!

**For Wifi, connect to the „Freifunk“ network.
No registration or password is required.**

There are some Wifi-Hotspots available at this site. There are provided by „Freifunk“ a free and open community network run by volunteers.

We would like to improve and grow this network here and at other places. If you want to help us with that you are more than welcome!

We are looking for people who want to take care of the local network and can teach others about it.

We are especially looking for copywriters, graphics artists and people who have skills

or are interests in Linux and networking. We are also looking for ideas about applications that may help refugees.

If you are interested in or simply want to know more about Freifunk and what we do, please mail us at:
